Raj Manish Suhandani

+91 9586402020 | rajsuhandani11@gmail.com | LinkedIn | GitHub | Bhavnagar, Gujarat, India

Professional Summary

Frontend Developer specializing in React.js, Next.js, and TypeScript with experience building AI-powered applications, SaaS platforms, and interactive user experiences. Proven ability to develop responsive interfaces, integrate REST and third-party APIs, optimize frontend performance, and deploy production-ready applications. Strong foundation in Data Structures & Algorithms, OOP, and Software Engineering, with a keen interest in Full-Stack Development, Cloud Computing, and AI technologies.

Education

Government Engineering College, Bhavnagar (GTU) — Bhavnagar, India
Bachelor of Engineering in Information and Communication Technology; CGPA: 8.04/10 — *2023 – 2027*

Silver Bells Public School — Bhavnagar, India
Senior Secondary (XII) – CBSE: 79.8% | Secondary (X) – CBSE: 91.83% — *2020 – 2022*

Experience

Social Media Manager Intern – Ocavior
Digital Marketing, Social Media and Content Creation — *2026 – Present*

- Support social media content creation, content planning, brand-aligned copywriting, and platform-specific marketing creatives for digital campaigns.
- Apply social media management, content strategy, audience engagement, visual storytelling, and cross-functional communication skills.

React Development Intern – InfoLabz IT Services Pvt. Ltd. — Ahmedabad, India
Summer Internship — *03 Jul 2026 – 17 Jul 2026*

- Completed a two-week internship covering JavaScript ES6 fundamentals, React.js, API integration, and the development of an API-based React application.

Projects

Savora | *Next.js, React, TypeScript, PostgreSQL, Prisma, Authentication*

- Built a full-stack restaurant booking system with customer accounts, multi-step reservations, staff dashboards, menu management, and PostgreSQL data persistence.
- Enforced conflict-free table reservations using PostgreSQL exclusion constraints; implemented role-based workflows and API-backed features.

Veyra | *Next.js, React, TypeScript, Three.js, Tailwind CSS, AI-Inspired Analytics*

- Developed an interactive 3D project-management SaaS prototype with workspaces, task boards, analytics, a risk visualization, and client portals.
- Built responsive dashboards and reusable components with React Three Fiber, Three.js, and interactive data visualization.

AuditAI | *Next.js, TypeScript, Tailwind CSS, Supabase API, Google Gemini API*

- Architected an AI-powered code review platform using Next.js and TypeScript, delivering automated insights for software quality, security, and maintainability.
- Integrated Supabase API for database management and Google Gemini API for AI-driven code audit outputs and vulnerability detection.
- Engineered a repository health dashboard with Tailwind CSS, visualizing code quality metrics and scoring through a responsive UI.
- Optimized frontend architecture with component-based design, accelerating debugging workflows and enhancing developer productivity.

StudyNotion | *React 18, React Router v6, Redux Toolkit, Tailwind CSS, Three.js, GSAP*

- Enhanced an existing open-source LMS with immersive UI experiences, incorporating interactive 3D effects via Three.js and GSAP.
- Optimized state management using Redux Toolkit, ensuring predictable data flow across course discovery and enrollment workflows.
- Modernized frontend architecture with React Router v6 and refactored legacy components to fully responsive Tailwind CSS designs.
- Refactored legacy UI components for full responsiveness, improving cross-browser compatibility across mobile and desktop environments.

GymSpot | *React.js, Node.js, Tailwind CSS, Supabase API*

- Developed a fitness discovery web platform using React.js, connecting users with nearby gyms and wellness centers through an intuitive interface.
- Implemented location-based search and facility comparison features, simplifying membership discovery and selection for end users.
- Built user profiles and owner dashboards consuming REST APIs built with Node.js and Supabase to manage facility information, ratings, and analytics.
- Designed responsive, component-based UIs with Tailwind CSS, enhancing digital accessibility and user decision-making processes.

VaultIQ | *Next.js, TypeScript, Supabase, Three.js, Recharts*

- Built a personal finance dashboard with expense and budget tracking, savings goals, secure authentication, and interactive Recharts analytics.
- Integrated Supabase data workflows, responsive dashboard components, and Three.js visual effects.

PulseFit | *Next.js, TypeScript, Supabase, Recharts, GSAP*

- Created a fitness tracking platform with workout logging, analytics, goal setting, habit tracking, and responsive dashboard visualizations.
- Used React-based components, Supabase integration, and motion-driven UI to support mobile and desktop experiences.

Technical Skills

Languages: C++, JavaScript, TypeScript, Python, C
Frontend: React.js, Next.js, Tailwind CSS, Three.js, React Three Fiber, GSAP, Responsive Design, Component-Based Architecture
Backend & Data: Node.js, Supabase, PostgreSQL, Prisma, SQL, Authentication, Database Design
APIs: REST APIs, Google Gemini API, Google Cloud Console API, Rapid API, Supabase API
Tools: Git, GitHub, Vercel
CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering
Digital Marketing: Social Media Management, Content Strategy, Copywriting, Content Planning, Brand Communication
Soft Skills: Problem-Solving, Communication, Team Collaboration, Adaptability, Creativity, Innovation
AI-Augmented Development: ChatGPT, Claude, Gemini, Lovable, Antigravity, Vibe Coding
